

Mass Timber Portfolio

M.Thrailkill.Architect has provided architectural and structural specifications and compiled Project Manuals for **nearly 50 mass timber projects** since 2015. These include a broad variety of project types, from community and higher education, to transportation and municipal, to residential and office buildings, and a range of structural systems, from pure mass timber to different hybrid mass timber systems. We've produced baseline mass timber specifications for manufacturers, fabricators and contractors as well.

1. Euclid Street Office Building *Lever Architecture*
Mass timber of **cross-laminated timber (CLT) decks, glue-laminated timber frame** and concrete core
Low-rise class A office building, new construction (Santa Monica, California) - *In design*
2. McCadden Place Office Building *Lever Architecture*
Mass timber of **cross-laminated timber (CLT) decks, glue-laminated timber frame** and steel core
Low-rise class A office building, new construction (Los Angeles, California) - *In design*
3. Argyle Apartments *Wright Architecture*
Mass timber of **cross-laminated timber (CLT) decks, glue-laminated timber frame** and concrete core
Mid-rise multi-family apartment building, new construction (Portland, Oregon) - *In design*
4. 900 SE Sandy Apartments *Lever Architecture*
Mass timber of **cross-laminated timber (CLT) decks, glue-laminated timber frame** and steel core
Low-rise class A office building, new construction (Portland, Oregon) - *In design*
5. Albina One Apartments *Lever Architecture*
Mass timber of **cross-laminated timber (CLT) decks, glue-laminated timber frame** and concrete core
Mid-rise apartment building, new construction (Portland, Oregon) - *In design*
6. Redmond Senior and Community Center *Opsis Architecture*
Mass timber of **cross-laminated timber (CLT) decks, glue-laminated timber frame** and concrete core
Low-rise community recreation and activities building, new construction (Redmond, Washington) - *In design*
7. World Forestry Center Expansion and Renovation *Lever Architecture*
Mass timber of **cross-laminated timber (CLT) decks, glue-laminated timber frame** and **CLT core**
Low-rise class A office building, new addition and renovation (Portland, Oregon) - *In design*
8. Baseline Mass Timber Specifications *WoodWorks, div. of Wood Products Council*
Development of **baseline mass timber specifications** meeting latest mass timber standards for **CLT, MPP, DLT, NLT, glued-laminated** and other **mass timber**, for national distribution to architects, engineers and contractors.
9. Thesis Office Building *Lever Architecture*
Mass timber of **cross-laminated timber (CLT) decks, glue-laminated timber frame** and steel core
Low-rise class A office building, new construction (Portland, Oregon) - *In design*
10. Kirkland Urban East Office Building *Lever Architecture*
Mass timber of **cross-laminated timber (CLT) decks, glue-laminated timber frame** and concrete cores
Mid-rise, class A office building, new construction (Kirkland, Washington) - *In design*
11. Salem Public Works Operations Building *Hacker Architects*
Mass timber of **cross-laminated timber (CLT) decks, glue-laminated timber frame** and concrete core
Low-rise class A office building, new construction (Salem, Oregon) - *In construction*

12. Shevlin Crossing Office Building *TVA Architecture*
Mass timber of **cross-laminated timber (CLT) decks**, **glue-laminated timber frame** and **CLT core**
Low-rise class A office building, new construction (Bend, Oregon) - *In construction*
13. Monmouth City Hall *FFA Architecture and Interiors*
Mass timber of **cross-laminated timber (CLT) decks**, **glue-laminated timber frame** and **CLT shear walls**
Low-rise municipal headquarters building and courts facility (Monmouth, Oregon) - *In construction*
14. 2525 Hyperion Office Building *Lever Architecture*
Mass timber of **cross-laminated timber (CLT) decks** and steel frame and core
Low-rise class A office building addition and renovation (Los Angeles, California) - *In design*
15. Forest Grove City Hall *FFA Architecture and Interiors*
Mass timber of **cross-laminated timber (CLT) decks**, steel frame and concrete shear walls
Expansion of low-rise municipal headquarters building (Forest Grove, Oregon) - *In construction*
16. Sunrise Water Authority Headquarters Office Building *FFA Architecture and Interiors*
Mass timber of **cross-laminated timber (CLT) decks**, steel frame and concrete shear walls
Low-rise public utility headquarters building and maintenance garage (Happy Valley, Oregon) - *In construction*
17. Baseline Mass Timber Specifications *TimberLab, div. of Swinerton Builders*
Development of **baseline mass timber specifications** for **cross-laminated timber (CLT)**, **glue-laminated wood**, **mass plywood panels (MPP)** and **connection hardware** for contractor's use on multiple projects
18. Josephine Apartments *Ink:Built Architecture*
Mass timber hybrid of **mass plywood decks**, **glue-laminated wood frame** and concrete core
Mid-rise commercial, residential and office building, new construction (Portland, Oregon) - *In design*
19. Dekum Court Apartments *Lever Architecture*
Mass timber hybrid of **cross-laminated timber (CLT) decks**, **glue-laminated timber frame** with steel braced frames
Low-rise community building, new construction (Portland, Oregon) - *In construction*
20. Perry Smiley Office Building *Lever Architecture*
Mass timber hybrid of **cross-laminated timber (CLT) decks**, composite steel/ concrete beams, steel braced frames
Mid-rise commercial and office building, new construction (Culver City, California) - *In design*
21. Park Blocks Pavilion and Plaza *FFA Architecture and Interiors*
Mass timber of **cross-laminated timber (CLT) roof deck**, **walls and shear walls** and **glue-laminated timber frame**
Low-rise farmers' market building and public plaza, new construction (Eugene, Oregon) - *In construction*
22. CT7 Spring Street Office Building *Lever Architecture*
Mass timber hybrid of **cross-laminated timber (CLT) decks**, **glue-laminated timber frame** with steel and CMU cores
Mid-rise class A office building expansion of existing warehouse (Los Angeles, California) - *In construction*
23. University of Portland Shiley-Marcos Center for Design and Innovation *Opsis Architecture*
Mass timber hybrid of **cross-laminated timber (CLT) decks** and steel frame
Higher education teaching and laboratories, low-rise, new construction (Portland, Oregon) - *In construction*
24. King County Jameson Office Building Replacement *MWA Architecture*
Mass timber hybrid of **cross-laminated timber (CLT) decks**, steel frame and concrete shear walls
Low-rise public utility headquarters and maint. garage, new construction (Seattle, Washington) - *Not constructed*
25. Division 28 Homes *Hacker Architects*
Mass timber hybrid of **cross-laminated timber (CLT) decks** and cast-in-place concrete frame and core
Mid-rise condominium building, new construction (Portland, Oregon) - *In construction*

26. Baseline Mass Plywood Panel Specifications *Freres Brothers*
Development of **baseline mass timber specifications** for manufacturer's proprietary **mass plywood panels (MPP)**
27. Halley Rise Office Building *Hacker Architects*
Mass timber hybrid of **cross-laminated timber (CLT) decks, glue-laminated timber frame** and concrete core
Mid-rise class A office building, new construction (Reston, Virginia) - *In bidding*
28. Charles M. Schulz, Sonoma County Airport *Mead & Hunt*
Mass timber hybrid of **cross-laminated timber (CLT) decks, glue-laminated timber** and steel frame and core
Airport terminal expansion and additions, low-rise (Santa Rosa, California) - *Completed*
29. Phase 4, 3rd Avenue Office Building *Hacker Architects*
Mass timber hybrid of **mass plywood decks, and frame** and concrete core
Mid-rise class A office building, new construction (Portland, Oregon) - *Not constructed*
30. Meyer Memorial Trust Office Building *Lever Architecture*
Mass timber of **mass plywood panel (MPP) decks, frame and core**
Low-rise class office building, new construction (Portland, Oregon) - *Completed*
31. Pier 70 Parcel A Office Building *Hacker Architects*
Mass timber hybrid of **cross-laminated timber (CLT) decks, glue-laminated timber frame** with steel braced frames
Mid-rise class A office building, new construction (San Francisco, California) - *Not constructed*
32. Hidden Creek Community Center *Opsis Architecture*
Mass timber hybrid of **cross-laminated timber (CLT) decks and glue-laminated** and steel frame and core
Community recreation center, low-rise, new construction (Hillsboro, Oregon) - *Completed*
33. Oregon Episcopal School Gymnasium Expansion *Lever Architecture*
Mass timber of **cross-laminated timber (CLT) decks, glue-laminated timber frame** and core
Campus sports and recreation building expansion, low-rise (Portland, Oregon) - *In construction*
34. Nomad Apartments *Works Progress Architecture*
Mass timber of **cross-laminated timber (CLT) decks, glue-laminated timber frame** and lumber-framed core
Mid-rise mixed-use, multi-family housing, new construction (Portland, Oregon) - *Completed*
35. Adidas East Village South Recreation Building *Lever Architecture*
Mass timber hybrid of **cross-laminated timber (CLT) decks and glue-laminated** and steel frame and core
Corporate headquarters class A office building, mid-rise, new construction (Portland, Oregon) - *Completed*
36. Adidas East Village North Office Building *Lever Architecture*
Mass timber hybrid of **mass plywood decks, precast concrete frame and concrete core**
Corporate headquarters class A office building, high-rise, new construction (Portland, Oregon) - *Completed*
37. Ledding Library *Hacker Architects*
Mass timber of **cross-laminated timber (CLT) decks, glue-laminated timber frame** and lumber-framed shear walls
Community library, low-rise, new construction (Milwaukie, Oregon) - *Completed*
38. Canyons Apartments *Path Architecture*
Mass timber of **cross-laminated timber (CLT) decks, glue-laminated timber frame** and lumber-framed core
Mid-rise mixed-use, universal, multi-family housing, new construction (Portland, Oregon) - *Completed*
39. Adidas Intersection Office Atrium *Hacker Architects*
Mass timber **cross-laminated timber (CLT) decks and glue-laminated timber frame**, connection to existing building
Mid-rise class A office building lobby addition (Portland, Oregon) - *Completed*

40. Oregon Conservation Center/ The Nature Conservancy Office Building *Lever Architecture*
Mass timber of **cross-laminated timber (CLT) decks** and **glue-laminated timber frame and core**
Low-rise class A office building addition and renovation (Portland, Oregon) - *Completed*
41. Forest Park Entrance and Nature Center *Dangermond Keane Architecture*
Mass timber of **cross-laminated timber (CLT) decks**, **glue-laminated timber frame** and lumber-framed core
Low-rise community and parks facility, new construction (Portland, Oregon) - *Project restarted*
42. Silica Office Building *William Kaven Architecture*
Mass timber hybrid of **cross-laminated timber (CLT) decks**, **glue-laminated timber frame** and concrete core
Mid-rise class A office building, new construction (Portland, Oregon) - *Completed*
43. First Tech Credit Union Oregon Headquarters Office Building *Hacker Architects*
Mass timber hybrid of **cross-laminated timber (CLT) decks**, **glue-laminated timber** and steel frame and core
Mid-rise class A office building, new construction (Hillsboro, Oregon) - *Completed*
44. Outpost Multi-Use Building *Skylab Architecture*
Mass timber of **cross-laminated timber (CLT) decks** and **glue-laminated timber frame and core**
Mixed-use commercial, low-rise, new construction (Hood River, Oregon) - *Completed*
45. Oregon State University, Advanced Wood Products Laboratory *Michael Green Architects*
Mass timber of **mass plywood panel (MPP) decks and shear walls** and **glue-laminated timber** and steel frame
Higher education teaching and laboratories, low-rise, new construction (Corvallis, Oregon) - *Completed*
46. Oregon State University, College of Forestry *Michael Green Architects*
Mass timber of **cross-laminated timber (CLT) decks and core** and **glue-laminated timber frame**
Higher education teaching and laboratories, low-rise, new construction (Corvallis, Oregon) - *Completed*
47. Flex Office Building *Lever Architecture*
Mass timber of **cross-laminated timber (CLT) decks** and **glue-laminated timber** and steel frame
Low-rise maker space/ commercial building, new construction (Portland, Oregon) - *Completed*
48. Framework Office Building and Apartments *Lever Architecture*
Mass timber of **cross-laminated timber (CLT) decks** and **glue-laminated timber frame and core**
High rise mixed-use office building / residential, new construction (Portland, Oregon) - *Not constructed*

Projects are listed in reverse chronological order, with most recent project first; some projects are in design and documentation stages currently, others have been completed (or were not constructed), as noted.
