Experience:

m.thrailkill.architect llc Portland, Oregon February 2016 to present

Intern architect, providing specification writing, product and materials research, and document review.

Specialties: Specifications Writing, Document Review, Research

Position: Associate

Involvement: David began providing contract specifications writing on a free-lance basis to Michael Thrailkill, Architect in summer 2014, and continued to build his experience working with Michael as the firm grew and took on more clients and project types. David became a full-time employee in February 2016 and is quickly developing his skills in specifications, while channeling his past experience with architectural detailing and construction administration to bring a professional attention to the specifics of clients' projects.

David becomes involved with projects from the development of proposals, helping to assess a project's scope in order to accurately determine effort required to produce the written project documents. He stays with the project's architectural team through its development, re-evaluating the architects' documents at each milestone to ensure evolving designs are accurately portrayed in the documents we produce.

TVA Architects Portland, Oregon June 2012 to January 2016

Regionally recognized architecture, planning and interior design firm serving regional corporations and local governments in the Oregon, Washington and California.

Specialties: Corporate office, airport

Position: Intern Architect

Primary Role: Construction Administration

Other Roles: Detailing, Revit and CAD Drafting

Involvement: David provided construction administration for several projects for TVA's most important clients and construction partners, including Oregon Military Department's Fort Dalles Readiness Center, for a corporate aircraft hangar in Oregon and Banfield Pet Hospital's new Vancouver, Washington headquarters.

Yost Grube Hall Architecture Portland, Oregon August 2007 to March 2012

Regionally and internationally recognized architecture, planning and interior design firm serving schools of higher education, Fortune 50 corporations, and local, state and federal governments in the Pacific Northwest, Hawai'i, Central and South America, Central and Southeast Asia, the Middle-East and Africa.

Specialties: Higher Education, Recreation

Position: Intern Architect

Primary Role: Detailing, Revit and CAD Drafting

Other Roles: Construction Administration, Specifications Assistant

Involvement: David provided detailing and drafting for YGH's higher education and student recreation projects, as well as both diplomatic and corporate projects in overseas locations. David also provided construction administration for YGH's project for Humboldt State University's Physical Education Complex.
